# Elouise Van Biljon

Intermediate Web Developer

## SUMMARY

Intermediate Web Developer highly skilled in digital Marketing & Content Creation to improve business approach. Proficient in using HTML5, CSS3, and JavaScript for Web Design and Development. Adept at using Python and Pygame. Currently Seeking any Junior/intermediate Web developer/freelancing position.

## APPLICATION DEVELOPMENT

### Python Sudoku Game Solver Board(Pygame)

Feb '22 - Feb '22

#### Project 1

South Africa

- [GitHub](#)
- Used Backtracking to create the layout of the Sudoku board.
- Compiled an algorithm to structure the gameplay of the board, to make the sure sequence of numbers fit according to game law.
- Pygame was used to create a playable Sudoku board to test out the solver algorithm.

### Kaban Board(Drag&Drop) HTML,CSS & JS

Dec '21 - Dec '21

#### Project 2

South Africa

- [GitHub](#)
- HTML5 was used to create the layout of the containers for styling.
- Used CSS to style all the containers and add a background image.
- Drag and Drop API was used so I could store data in local storage, so items could be moved between the HTML elements.

## EDUCATION
